github.com/FatimahNoman | linkedin.com/in/fatimayv-n | fatimah-ai.vercel.app

PROFESSIONAL SUMMARY

Agentic AI Engineer and Full-Stack Developer with 4+ years of hands-on development experience building AI agents, RAG pipelines, automation workflows, and full-stack web applications. Skilled in the OpenAI Agents SDK, LLM integrations, and modern web stacks including Next.js, React, TypeScript, and Python.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript

AI & Agentic AI: OpenAI Agents SDK, AI Agents, Multi-Agent Systems, RAG, Vector Search, Prompt Engineering, LangChain, Gemini, OpenRouter

Automation: AI agent-based workflow automation (API & service integrations), intelligent process automation

Frontend: Next.js, React, Tailwind CSS

Backend: REST APIs, Node.js

Databases: PostgreSQL (Neon), Supabase

Tools & Deployment: Git, GitHub, Docker, Vercel, Hugging Face, Railway, Render, Streamlit

SELECTED PROJECTS

AI Humanoid Robotics Textbook — RAG-Based Chatbot Platform (Agent) — *Next.js, Tailwind CSS, RAG, OpenRouter*

- Built an interactive learning platform for Physical AI and Humanoid Robotics with an embedded RAG-based chatbot for multi-source, context-aware query responses.
- Recognized as a Top 10 Finalist (AI Agent Developer) at the Physical AI Hackathon.

Live: ai-career-mentor-woad.vercel.app/

WhatsApp & Gmail Automation (Automation) — *Python, Workflow Automation*

- Built an automation workflow integrating WhatsApp and Gmail to handle messaging and notification tasks.
- Developed as a Silver Tier submission for the Hack Zero hackathon.

GitHub: github.com/FatimahNoman/Hack_Zero/tree/master/Silver_Tier

Blushhaven Shop — AI-Powered E-Commerce Platform (Web) — *Next.js, TypeScript, Tailwind CSS, AI Tools, Vercel*

- Developed a full-stack e-commerce platform integrating an AI-powered skin quiz and product shade finder.
- Implemented an AI-driven routine builder and deployed a production-ready interface on Vercel.

Live: blushhaven-shop.vercel.app/

EXPERIENCE

Founder / AI & Software Developer — SFlyra Labs

2024 – Present

- Build agentic AI systems and automation solutions using LLM integrations and RAG pipelines.
- Develop full-stack applications and AI-powered workflows; handle architecture through deployment (Vercel, Railway, Docker).

Live: www.sflyra.site

HACKATHONS & ACHIEVEMENTS

- Alibaba Cloud x Bano Qabil Hackathon 2026 — Advanced to the Final Regional Round; project among Grade 1 teams.
- Physical AI Hackathon — Top 10 Finalist, AI Agent Developer role. Completed 4 hackathons in total.

EDUCATION

Intermediate (Commerce) — St. Patrick's College, Karachi

2023 – 2025

Matriculation (Commerce) — St. Patrick's Girls High School, Karachi

2014 – 2023

CERTIFICATIONS & MEMBERSHIPS

- Registered Freelancer — Pakistan Freelancers Association (PAFLA)
- AI Tools & Applications Course — Governor House (In Progress, Dec 2024 – Present)
